

# Fixed test data — CV C

Use this CV, alongside CV A and CV B, as scoring input in your app. Fictional candidate, created for this exercise.

## Sam Whitfield

Frontend Developer — 3 years experience

### Summary

Frontend developer focused on building polished, accessible user interfaces. Comfortable across the modern frontend ecosystem, with some exposure to backend work when needed.

### Experience

**Frontend Developer — Loop Studio (product agency), 2022–present** - Built and maintained React/TypeScript frontends for several client products. - Implemented design systems and component libraries used across multiple projects. - Worked with designers to translate Figma files into production UI. - Occasionally wrote small backend endpoints (Node.js/Express) to support frontend features, mostly CRUD operations against a Firebase database.

**Junior Frontend Developer — Meridian Retail (in-house), 2021–2022** - Maintained the customer-facing e-commerce site's frontend. - Fixed UI bugs and implemented minor feature requests. - No involvement in backend, database, or infrastructure work.

### Skills

React, TypeScript, CSS/Tailwind, Figma-to-code, Firebase, basic Node.js/Express, Git.

### Education

BA Digital Media, Sheffield Hallam University.
